

Anxiety Resource Pack

Guidance

- **Body Outline**

Use the body outline resource to teach individuals how their body might feel when they experience signs of worry or anxiety. They can circle the symptoms they have and if they wish create a worry boy or girl on the next page.

- **5 Point Scale**

A 5 point scale is used to teach individuals that feeling can be placed on a scale, the more heightened the feeling the higher the number. Individuals can change the colouring and include interest areas. It may make it easier to communicate feelings by using a number or colour e.g. I feel like a 3 or I feel orange. A list of calming ideas should also be incorporated into the scale with special focus being given around numbers 3 and 4.

- **Sticky slimy Thoughts**

This resource can be used for individuals that don't like to refer to thoughts as anxiety or worries. We can refer to these thoughts as sticky thoughts, we can also think of another option (positive thought) to put into the blue bubble.

- **Calm Down ideas**

A list of coping tools for individuals to choose from. Also grounding ideas. You can find many more ideas online.
